August 21, 2017

To McCoy Water Supply Corporation Members:

Unfortunately, it has become necessary for McCoy Water Supply Corporation to raise our rates.

It has been approximately 5 years since our last rate increase. Since then we have added over \$6,000,000 in new infrastructure that needs to be maintained; and we have also surpassed the 40-year mark of our water system, which now requires the replacement of aging infrastructure.

Simply put, we have to raise rates to keep up with rising costs of maintenance and replacement for our water system.

McCoy's average customer usage is approximately 11,000 gallons. For the average customer, this increase will amount to approximately \$4.28 increase on your monthly bill.

The new rate will appear on your November (2017) bill and is follows:

Base Rate \$35.00

Gallons	Rate
1-10,000	\$2.50
10,001-20,000	\$3.00
20,001-50,000	\$4.00
50,001+	\$4.50

If there are any questions please contact us at (830) 569-5575.

Sincerely,

Gene Camargo, General Manager
McCoy Water Supply Corporation
